

THE DONCASTER COLLEGE

ENGLAND

BA (Hons) Business Management Awarded by University of Hull

This is a general business and management qualification designed to give students an all round knowledge and understanding of contemporary management. The contemporary focus is provided through practical use of relevant ICT, customer focussed approaches, an international viewpoint and the integration of work related learning

What will I study?

Example Modules:

Business Economics
Human Resource Management
Business Law
Managing Activities
Management Development
Managing Information and Statistics
Business Environment
Employability and Business Reality
Information Technology
Managing Finance and Decision Making
Organisational Behaviour
Marketing
International Management
Enterprise and Entrepreneurship

Duration

1-3 years full time, depending on level of entry

How will I be assessed?

A combination of coursework, examinations, presentations and practical exercises, a dissertation on a business related topic, a summer placement between Year 2 and 3 plus one day per week for the first semester of the final year.

Career Opportunities

Graduate management training schemes in a wide variety of business fields including: administration in either the public or private sector, finance, accountancy, operations, information technology, information systems and general management
